REDEFINING REFINISH

Redefine refinishing with Sherwin-Williams® Ultra 9K™. An innovative waterborne basecoat system with a straightforward application process delivering premium results. A refinishing solution with toners rich in pigment, intensity and effect - to match all Original Equipment Manufacturer colours currently available in the market. Backed by Ultra System ancillaries - high-performance cleaners, additives, primers/surfacers and clears, guaranteeing a complete system for outstanding results.

Ultra 9K goes beyond colour accuracy, our customers receive the latest technology, colour tools and world-class service. At Sherwin-Williams, it is our people who make the difference to our customer's business, accelerating their performance to achieve sustainable growth and profitability, both now and in the future.

Take your shop to the next level with Ultra 9K and Ultra System.

WE ARE SHERWIN-WILLIAMS®.

CLEANERS

Clean equipment and surfaces are fundamental for a premium quality finish. Sherwin-Williams cleaning agents prepare the substrates ensuring a clean base ready for paint.

ULTRA SYSTEM CLEAN SURFACE

Lift dirt that cannot be removed by a solvent cleaner with CL710, we recommend to use it after a solvent based cleaner for optimal results.

Easily remove grease, oil and tarmac with our solvent based degreasers, CL790 and CL795.

CL710	WATER	5 LITRE
CL790	SOLVENT	5 LITRE
CL795	SOLVENT	20 LITRE

ULTRA SYSTEM CLEAN GUN

Our spray gun cleaners efficiently and effectively clean solvent and waterbased products from the spray gun.

CL720	WATER	5 LITRE
CL785	SOLVENT	20 LITRE

CL770

ULTRA SYSTEM CLEAN ANTISTATIC DEGREASE

A waterbased antistatic cleaner that can discharge static electricity from plastic parts, as well as effectively clean dirt that cannot be removed with a solvent cleaner. Use after a solvent based cleaner for optimal results.

5 LITRE

ADDITIVES

Sherwin-Williams additives are designed to alter the features and consistency of our clears and Ultra 9K basecoats.

ULTRA SYSTEM ADDITIVE

These textured additives can be mixed with Sherwin-Williams Ultra System 2K clears to give a fine or coarse finish depending on the desired result. They can also be used on certain plastic parts.

AD820 TEXTURE FINE 1 LITRE

AD830 TEXTURE COARSE 1 LITRE

AD860

ULTRA SYSTEM ADDITIVE ACCELERATOR

Enhance the drying times of the Sherwin-Williams Ultra System CC140 Clear Elite Gloss with this accelerating additive.

SIZE AVAILABLE

1 LITRE

U9A1

ULTRA SYSTEM ADDITIVE UNDERHOOD

Developed to make Ultra 9K basecoat highly durable and suitable for use on the engine bay, boot and interiors without the need for a clear.

SIZE AVAILABLE

1 LITRE

PRIMERS/ SURFACERS

Sherwin-Williams primers/surfacers are versatile, reliable and designed to improve productivity while producing a smooth surface for premium results.

ULTRA SYSTEM PRIME STANDARD

A high fill sanding surfacer developed for use on the most common car refinish substrates. Use it in combination with a primer depending on the substrate being worked on for optimal results, it also offers good drying properties and is easy to sand. It is available in 3 shades, which can be mixed to match the grey shades available in the Colour Retrieval System.

P520A	ULTRA SYSTEM PRIME STANDARD - GRAY	3 LITRE
P520B	ULTRA SYSTEM PRIME STANDARD - BLACK	3 LITRE
P520W	ULTRA SYSTEM PRIME STANDARD - WHITE	3 LITRE

ULTRA SYSTEM PRIME UNIVERSAL

An extremely versatile primer than can be used for both sanding and non-sanding applications to produce a high-quality surface that is high gloss in appearance. Available in 3 shades, which can be mixed to match the grey shades available in the Colour Retrieval System.

P540A	ULTRA SYSTEM PRIME UNIVERSAL - GRAY	3 LITRE
P540B	ULTRA SYSTEM PRIME UNIVERSAL - BLACK	3 LITRE
P540W	ULTRA SYSTEM PRIME UNIVERSAL - WHITE	3 LITRE

ULTRA SYSTEM PRIME SHADE

Ideal for small repairs and sanded through areas, this primer comes in an aerosol canister making it quick to use as no mixing is required. It's easy to sand and provides excellent coverage.

P590W	ULTRA SYSTEM PRIME SHADE WHITE	0.4 LITRE
P590LG	ULTRA SYSTEM PRIME SHADE LIGHT GRAY	0.4 LITRE
P590MG	ULTRA SYSTEM PRIME SHADE MID GRAY	0.4 LITRE

P570A

ULTRA SYSTEM PRIME ETCH

A self-etching anti-corrosive grey primer with excellent adhesion to steel and non-ferrous metals.

SIZE AVAILABLE

4 LITRE

P580

ULTRA SYSTEM PRIME PLASTIC ADHESION

Ready to use 1K primer that can be applied to the most common plastics such as PP, EPDM and ABS. It is mixable with the Sherwin-Williams Ultra System Prime Production primers and is re-coatable with all Sherwin-Williams Ultra System 2K Primer/Surfacers and Ultra 9K basecoats. Also available as convenient aerosol spray.

SIZE AVAILABLE

0.4 LITRE, 1 LITRE

P588

ULTRA SYSTEM PRIME CORROSION PROTECTOR

This primer adheres to bare metal and most aluminium used in vehicle construction. It has excellent adhesion and gives corrosion protection between the substrate and the next layer.

SIZE AVAILABLE

1 LITRE, 5 LITRE

UVP1

ULTRA SYSTEM PRIME UV

This ready to use UV primer is curable using UV technology for fast and eco-friendly drying. Offering a high film build and easy sanding, it can be used on all common refinish substrates.

SIZE AVAILABLE

1 LITRE

PRECISE COLOUR.

Sherwin-Williams' global presence and heritage enables not only a continual investment in Research & Development but access to the very latest advances in technology and innovation. Ultra 9K is manufactured in the most sophisticated lab conditions, using advanced technology and high-quality raw materials for precise colour accuracy.

Our Ultra 9K toners are rich in pigment, intensity and effect to match all Original Equipment Manufacturer colours currently available in the market. This is backed by the exacting standards of the Ultra System ancillaries - high-performance cleaners, additives, primers/surfacers and clears, guaranteeing a complete system for outstanding results, that will pass even the toughest of tests.

COLOUR SYSTEM

An impressive range of toners - delivering vibrant and brilliant colours, use alongside our global colour tools for an accurate colour match first time, no matter how complex the finish.

TONERS

A portfolio of rich and pigmented toners, including pearls, metallics and special effect colours, that are easy-to-mix with a unique push mechanism and pouring spout that give an air-tight solution, which reduces waste.

CLEAR

Sherwin-Williams clears are designed to achieve an exceptional appearance and distinctness of image no matter the environment or type of repair.

CC154/6

ULTRA SYSTEM CLEAR

Easily achieve the various gloss levels required to match any OEM low and semi-gloss finish by mixing these two clears. A matte selector is also available to choose from in the Colour Retrieval System.

SIZE AVAILABLE

1 LITRE

CC140

ULTRA SYSTEM CLEAR ELITE GLOSS

Developed for high end and exclusive cars, this excellent clear gives outstanding gloss and levelling to produce the most premium appearance. Accelerate drying performance by mixing it with the AD860 Ultra System Additive Accelerator.

SIZE AVAILABLE

5 LITRE

CC130

ULTRA SYSTEM CLEAR MULTI DRY

A versatile clear that can be dried at different temperatures, excelling in higher temperatures used for all size repairs from small to total resprays with 1.5 to 2 coats needed.

SIZE AVAILABLE

5 LITRE

CC808

ULTRA SYSTEM CLEAR AIR DRY

This clear offers a premium high gloss appearance with excellent flow and levelling. It can be sprayed in a wet-on-wet application without flash off between coats and is rapidly drying in as little as 30 minutes.

SIZE AVAILABLE

3.78 LITRE

CC133

ULTRA SYSTEM CLEAR PRODUCTION

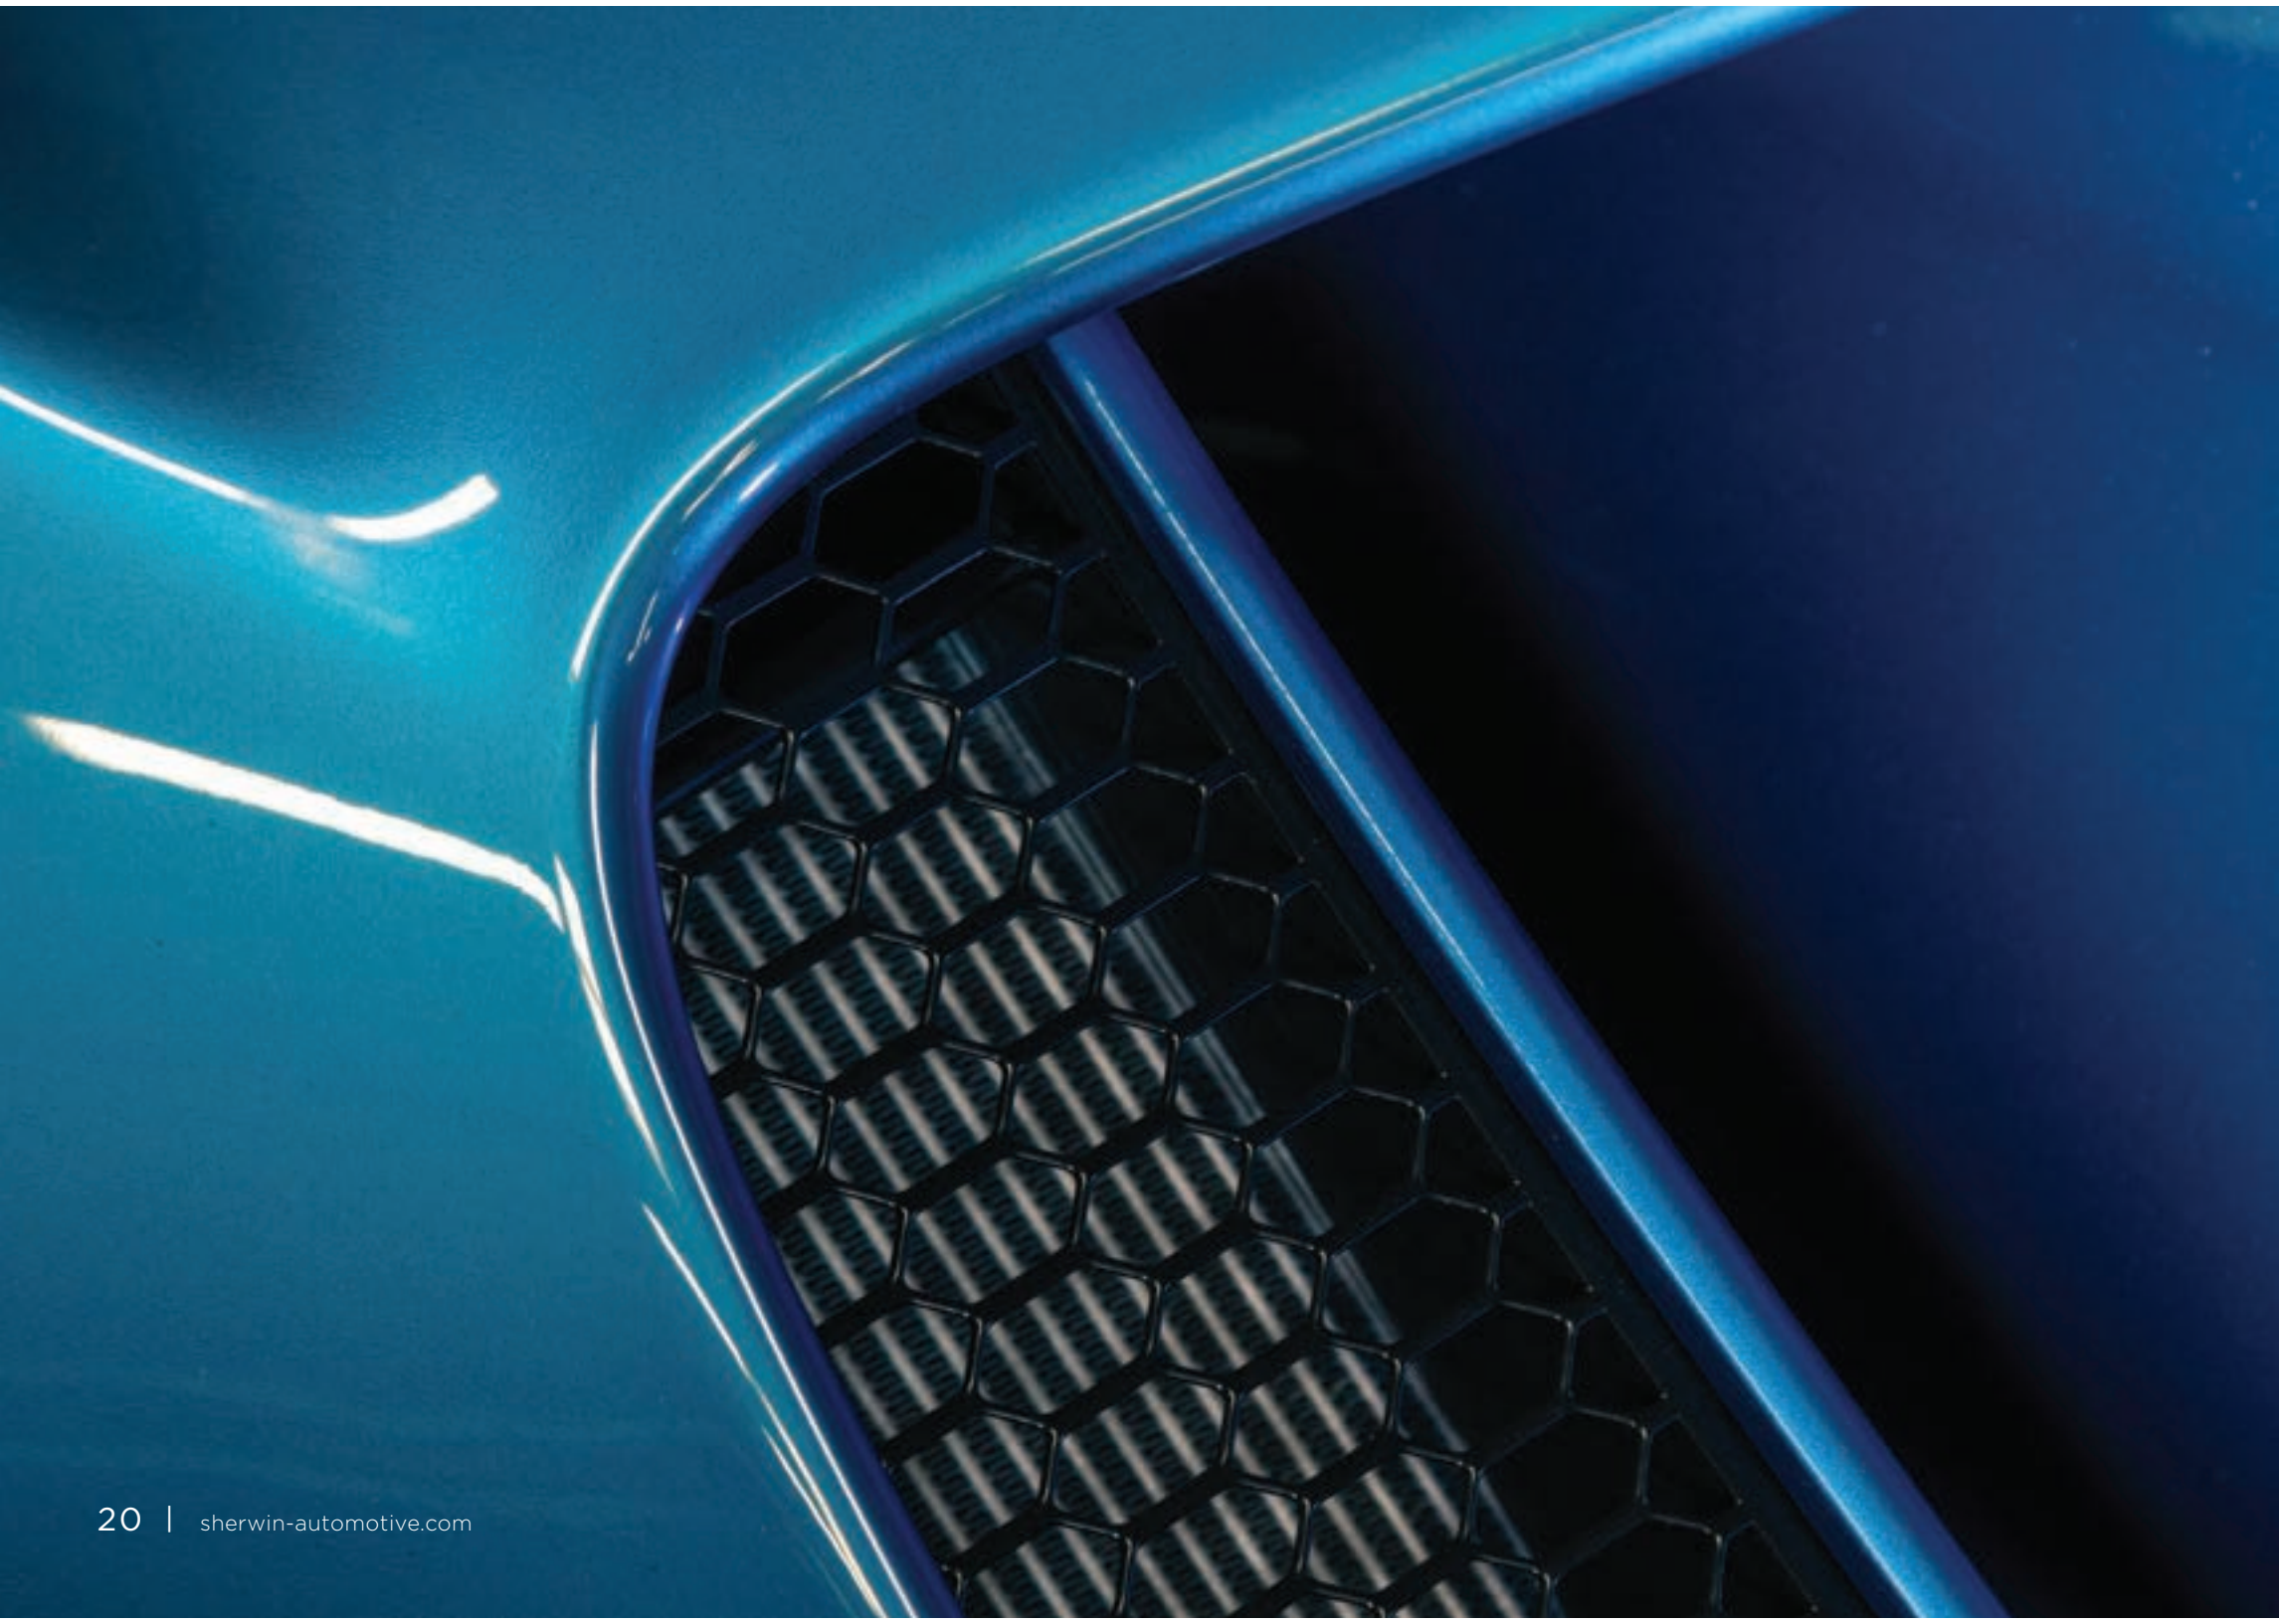

The clear provides a drying time of just 10 minutes at 60°C object temperature across multiple repair sizes, increasing throughput, efficiency and overall profit.

The Clear Production offers job versatility, it can be used for fast small repairs, up to medium-sized jobs, without compromising on the quality of the finish.

This allows body shops to rely on a single clear for multiple repair work, helping to reduce stock holding. It enhances body shop performance, rapid drying enables faster completion of repairs which increases throughput, maximises spray booth utilisation and allows for significant energy savings.

SIZE AVAILABLE

5 LITRE
